### Job description

The basic purpose of the role is to lead and supervise the Science Technician team in the delivery of technical laboratory support for science lessons in a well-resourced and efficient environment, with due regard to the health and safety of all pupils and other individuals who have contact with the area.

The supervisory and managerial responsibilities will include, but are not limited to the coordination & deployment of the Science Technician hours, identifying training needs within the team, participating in the recruitment and selection of new team members, supporting the Head of Science in management and appraisal reviews.

The technical duties will include, but are not limited to overseeing the running of laboratories and project areas, equipping the appropriate laboratory with all the apparatus and reagents for any practical work, clearing laboratory apparatus, carrying out demonstrations when required and maintaining an appropriate stock of apparatus/reagents.

Full job description is available on Charterhouse website.
